## BACKGROUND

### ABOUT

Software Developer, Tech Lead and Mentor with 20+ years of experience. Specialized in .Net (C#/F#), Node.js, Angular 2+, React, Azure, Microservices, Serverless Architecture, TDD, DDD, and AI Chat Bots/Agents. Proven track record of scaling systems from dozens to thousands of requests per minute, leading teams, mentoring developers, and building products from scratch.

### WORK EXPERIENCE

**Tech Lead, Full-Stack Developer, and Mentor**, BairesDev

Mar, 2021 - Present

Tech Lead, Full-Stack Developer, and Mentor working with Microsoft technologies (Azure, .Net, SQL Server), Go, Node.js, Angular, React, and Vue.js.

- Migrated legacy applications to microservice solutions with Azure Functions in record time
- Introduced TDD culture — hundreds of tests covering critical paths, securing deployments
- Automated API client generation for JavaScript with OpenAPI and DevOps, reducing frontend adoption time
- Received R&D Spotlight Award for Q4 2021 at a key player in the hospitality industry
- Led migration of monolith applications to microservices with Node.js, Express, and Next.js
- Used Kubernetes/Argo CD to automatically scale dockerized applications
- Configured Docker Compose to enable legacy application maintenance and improvements

- Supported AngularJS to Angular 2+ migration in critical game/team management applications
- Mentored developers to increase productivity across multiple clients

---

**Full-Stack Developer & Tech Leader**, White Fox (B&T)

Nov, 2009 - Mar, 2021 11 years 4 months

Full-Stack developer and tech leader for one of Brazil's most outstanding money exchange brokers. Worked with C#, F#, WCF, NHibernate, Node.js, Angular 2+, and React using agile methodologies (Scrum, TDD, XP).

- Implemented TDD culture, eliminating regressions and bugs in production
- Automated deployments with Azure DevOps and management activities with Microsoft Bot Framework
- Evolved monoliths into microservices via SQL/Azure ServiceBroker, scaling from dozens to thousands of requests per minute
- Integrated with Brazil's Central Bank (Bacen STA), Federal Revenue Service, PIX, and Bitcoin payments
- Implemented cross-domain libraries in F# for proper DDD abstractions and encapsulation
- Migrated internal scheduling system to F# and Azure Functions, reducing maintenance cost and increasing performance
- Ensured MonoRepos and Modular Monolithic applications work across 20 years and multiple .Net versions
- Ported ActiveWriter to Visual Studio 2017, 2019, and 2022 for legacy NHibernate applications
- Since 03/2021, continued as consultant for critical solutions and specifications

---

**BizTalk and SharePoint Consultant**, Ecorp

Jan, 2009 - Nov, 2009 10 months

Senior consultant and developer in Microsoft BizTalk, SharePoint, SQL Server, ASP.NET. Worked directly with Light and L'Oréal performing technical management, requirements gathering, and SAP integrations.

- Implemented BizTalk integration between Oracle problem system and SAP mobile gateway, handling all external support requests for Light customers in Rio de Janeiro
- Automated publishing of Light KPIs from Excel into the company's internal SharePoint

---

**Senior Developer**, Oi - Accenture

Nov, 2007 - Jan, 2009 1 year 2 months

Maintenance of CRM/ERP systems for the Oi Tsunami project (SIA) and EPM with C# (ASP.Net and Desktop), SQL Server, WCF, and Oracle.

- Built M.A.R.T — a walkthrough system using external APIs for phone line quality testing that guided call-center operators
- Improved monthly conciliation process (Batimento) performance by 24x — from 12 hours to under 30 minutes

---

**Senior Developer & Team Leader**, Always Web

Jun, 2006 - Nov, 2007 1 year 5 months

Programming in C#, VB, PHP, JavaScript, ASP, and ActionScript. Project Manager and Team Leader managing two teams between Rio de Janeiro and São Paulo. Clients: Aliança do Brasil (Banco do Brasil), Cultura Inglesa, Thomson Edu.

---

**Web Developer**, AG Sistemas

Nov, 2004 - Jun, 2006 1 year 7 months

Web Developer with PHP and ASP Classic. Developed Apligraf's CRM/ERP for StockMarket and Digipix's photographic revelation service, still used by major Brazilian e-commerces (Americanas.com, Submarino, Shoptime, Saraiva, Extra).

## PROJECTS EXPERIENCE

### SIG (Integrated Management System)

Nov, 2018 - Present

CRM/ERP system for MYVT MI.IM written in TypeScript (Node.js backend) and Angular 2+ frontend. Uses Firebase for real-time sync across multiple branches, with planned expansion to Angola and Miami.

- Full-stack TypeScript application
- Real-time multi-branch sync with Firebase
- Multinational expansion planned

### Jarvis — AI Virtual Assistant

Sep, 2018 - Dec, 2022 4 years 3 months

AI chatbot using Microsoft Bot Framework and LUIS (Language Understanding Service) for Skype and Microsoft Teams. Automated scrum master activities, billing, planning, and common tasks.

- Natural language processing with LUIS
- Scrum master automation
- Built with TypeScript and Node.js

### Genesys SRD

Jun, 2019 - Present

Gatsby PWA for Grifo Editorial — an offline reference guide for tabletop RPG players with automated publication via Vercel.

### Elug |> RJ — Elixir Meetup

Jan, 2016 - Present

Co-organizer of the Rio de Janeiro Elixir meetup group. Led hands-on events building a real-time WebRTC audio/video chat and a multiplayer starship game.

- Real-time WebRTC audio/video chat
- Multiplayer game with Elixir/OTP

## SKILLS

### Backend Development

C# | F# | Node.js | Express | .Net Core | ASP.Net MVC | Elixir | Phoenix Framework | Ruby on Rails

### Frontend Development

JavaScript | TypeScript | Angular 2+ | React | Gatsby | TailwindCSS | Bootstrap | AngularJS

### Cloud & DevOps

Azure | Azure Functions | Azure DevOps | Docker | Kubernetes | Argo CD | GitHub Actions | Heroku | Digital Ocean

### Databases

SQL Server | PostgreSQL | MySQL | CosmoDB | Firebase | MongoDB | Redis

### Architecture & Methodologies

Microservices | Serverless | Event-Driven Architecture | DDD | TDD | Scrum | Kanban | XP

### Leadership

Tech Lead | Mentoring | Project Management | Architecture

## EDUCATION

**Ethics, Politics, and Economics, Bachelor of Philosophy,** UCS - Cruzeiro do Sul University
Jan, 2023 - Jun, 2026

**Chemical Engineering, Engineering,** UERJ (Rio de Janeiro State University)
Jan, 2003 - Jan, 2006

## AWARDS

**R&D Spotlight Award** , BairesDev / Hospitality Industry Client
Awarded on: Dec 01, 2021

Recognized as a key contributor for outstanding technical leadership and delivery in Q4 2021.
